

## What is Mosaic United?

---

Mosaic United is a historic partnership between the State of Israel and the Diaspora, aiming to deepen ties to Israel and connections to Jewish life

For the first time, the State of Israel is investing in the Diaspora in a joint effort to secure the Jewish future. Mosaic United focuses on young Jews, ages 13-35, to enhance initiatives that spark incredible Jewish experiences during crucial times of their lives.

Mosaic United partners with leading organizations to strengthen existing programming and launch new projects, responding to the needs of the Jewish youth today.

## What is the Campus Pillar?

---

Mosaic United's Campus Pillar is a partnership operating on campuses worldwide that reinforces a thriving Jewish life among university students

To connect under-engaged university students across the globe to their Jewish identity and to Israel, Mosaic United has teamed up with Israel's Ministry of Diaspora Affairs and the three leading organizations on college campuses – Hillel International, Chabad on Campus International and Olami United – which operate 80% of activities for Jewish students on campuses around the world.

The Campus Pillar provides funding, initiatives and benchmarks, giving the partnering campus organizations tools to increase the number of meaningful interactions, educational initiatives and immersive experiences that they are able to offer.

# The Campus Pillar in Action

Mosaic United's Campus Pillar enables students to shape their individual path and to increase their personal involvement on campus and within their community

On every campus with which Mosaic United works, a Senior Jewish Educator or a Senior Israel Educator aims to provide each student with ten or more experiences focused on Jewish and Israel-related topics. These include Shabbat retreats, social justice initiatives, learning programs **and more.**
