

**Exhibit: Data Notice**

Reflecting our commitment to act with transparency and clarity towards our customers, we, Mobileye Vision Technologies Ltd. (“**Mobileye**”), hereby notify you as follows:

1. Congratulations on your purchase of the Mobileye® 8 Connect™ product! This is one of the most advanced aftermarket collision avoidance products on the market, offering more advanced safety features while introducing innovations such as over-the-air update capability.
  2. In order to facilitate and in conjunction with these advanced features, the Mobileye 8 Connect is also designed to enable Mobileye to collect and transfer anonymous road-related and other data, including, for example, location of traffic signs, traffic lights, and lane markings; details of alerts generated by it; and the time and location at which they were collected (collectively, “**Data**”). Collection of Data occurs in the background, and has no effect on the proper operation of the product’s safety features. To the contrary, it allows us to enhance, improve and develop our products’ and services’ performance.
  3. By installing the Mobileye 8 Connect, you: (a) allow us to collect Data from Products installed on your fleet; (b) acknowledge and agree that we own all intellectual property rights worldwide in and to the Data, including patent rights, trade secrets, copyrights or any analogous right in any jurisdiction; and (c) agree not to collect data or information of any kind through the Products, nor attempt to access Data collected by the Products, nor to allow any third party to do so.
4. As stated above, we may deliver ‘over the air’ software updates in order to improve existing features or to add new ones.
  5. We may update this Notice from time to time. You agree to our use of your email address below for the purpose of informing you about (i) such updates and (ii) over-the-air updates. You agree to notify us promptly of any change to the email address by emailing us at [privacy@mobileye.com](mailto:privacy@mobileye.com).
  6. Finally, you, as fleet operator, undertake to make this Notice (as updated from time to time) available to your drivers.

I have read the above Notice, and agree to it:
