

**80%**

of shoppers won't shop where the shipping costs are too high

**50%**

of international e-commerce shoppers claim they won't buy if delivery time is too slow

**36%**

shop elsewhere after a poor experience

Exelot's e-commerce, cross-border, optimization platform enables shippers to provide an enhanced shipping delivery service, leading to an increase in customer satisfaction and growth in sales

## END-TO-END SOLUTION

### OPTIMIZED PROCESS

All processes are optimized from order and pick-up through sorting, air freight, clearance and delivery by Exelot's platform

### QUICK SHIPPING & DELIVERY

Exelot's solution enables quick shipping and delivery within just 3-7 days

### LAST MILE

Customers can choose their preferred delivery method: home delivery, automatic parcel lockers or self-collection shops

### TRACK AND TRACE

Parcels are tracked and traced anytime, anywhere from order to delivery including local customer service

### COST EFFECTIVE

Exelot offers highly competitive rates due to its advanced technology, expertise and efficiency

### ECOMMERCE GROWTH

Exelot's solution increases customer satisfaction and accelerates e-tail sales in international markets
