### TRANSLATION EXPERIENCE

Specialist fields:

- software and mobile app localization
- business software and ERP packages (e.g., SAP)
- corporate marketing, data management, supply chain
- history, history of art, geography, politics, philosophy
- data science, gastronomy

I have over 8 years' experience in Translation including 2 years as a Translation Project Coordinator and over 6 years as a freelance translator.

Throughout my career I have been involved in a broad range of projects and topics such as:

- continuous localization for a global mobile phone manufacturer and a global digital technology corporation, including UI strings & marketing content;
- e-learning programmes for global organizations e.g. sales & negotiation skills, CRM, SAP, etc.);
- website localization for clients in a number of sectors (retail, fashion & accessories, food & drinks, retailers, tourism & travel, digital identity);
- academic research, data science, history;
- social media research and reporting for high-profile end clients.

I also have over 16 years' experience working in multi-country, multi-language business software projects within worldwide corporations, involving many elements of translation and localization.

### PRO-BONO WORK

Occasionally, I do translation, localization and subtitling work for non-profit organizations, such as ProZ, TED Talks and Translators Without Borders.
