

MARTINE EMOND, Ph.D.

MEDICAL - SCIENTIFIC TRANSLATOR AND WRITER

6836 rue Boyer, Montreal, Qc, Canada, H2S 2J7

E-mail:memond@mpe-biomed.com

PROFILE

Scientist, translator and writer with more than 15 years of experience in scientific research.

EDUCATION

Present	Certificate in Translation , New York University, New York, USA
2006	PhD Biology (Neurobiology), University of Montreal, Canada
1999	MSc Biology (Neurobiology), University of Montreal, Canada
1997	Internship (Histology of the retina), University of Sucre, Venezuela
1996	Internship (Behavioral Neuroscience), University of Antofagasta, Chile
1992	BSc Biology (Ecology), University of Quebec in Montreal, Canada

TRANSLATOR SKILLS

Languages

- French
- English
- Spanish
- German

Translation pairs

- English (Can, UK, US) > French (Can, Fr)
- French (Can, Fr) > English (Can, UK, US)
- Spanish (Es) > French (Can, Fr)

Cat tools

- SDL Trados, MemoQ, CafeTran Expresso

Specialization

- Science, technical, medical, biomedical research, clinical trials, pharmaceutical, veterinary, public health policies, research agreement.

MARTINE EMOND, Ph.D.

MEDICAL - SCIENTIFIC TRANSLATOR AND WRITER

6836 rue Boyer, Montreal, Qc, Canada, H2S 2J7

E-mail:memond@mpe-biomed.com

TRANSLATION PROFESSIONAL EXPERIENCE

- Oct-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Stealth Translations, Ireland (English > French / French > English)
- May-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Language Scientific, United States (English > French / French > English)
- May-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Protranslating, United States (English > French / French > English)
- Mar-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Corporate Translations, United States (English > French / French > English)
- Feb-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Telelingua International, Belgium (English > French / French > English)
- Jan-2017- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by Surrey Translation Bureau, United Kingdom (English > French / French > English)
- Sep-2016- **Freelance Translator (Medical, Science and Technical Translation)**
Recruited by TransCom Global, Israel (English > French / French > English)
- May-2015 **Volunteer Translator (Public health)** for the United Nations (UN)
UNFPA-Cameroon (English > French)
- Sep-2014 **Volunteer Translator (Medical translation)** for Kaiser Permanente
Medical terminology reference manual (English > French) (collective work)
- April-2014 **Volunteer Translator (Medical translation)** for Translators Without Borders
Lists of medical supplies (English > French) (collective work)

MARTINE EMOND, Ph.D.

MEDICAL - SCIENTIFIC TRANSLATOR AND WRITER

6836 rue Boyer, Montreal, Qc, Canada, H2S 2J7

E-mail:memond@mpe-biomed.com

SCIENTIFIC PROFESSIONAL EXPERIENCE

- 2012-2016 **Postdoc fellow (Epilepsy)**, R.S. Dow Neurobiology Laboratory,
Legacy Research Institute, Portland, Oregon, USA
- 2007-2011 **Postdoc Fellow (Stem cell biology)**, Institute of Reconstructive Neurobiology,
Rheinische Friedrich-Wilhelms - University of Bonn, Germany
- 1999-2006 **Research Assistant** – Research Center, Ste-Justine Hospital,
Montreal, Canada
- 2001-2005 **Supervisor of pre-clinical studies** – for Neurochem Inc.,
at the Research Center of Ste-Justine Hospital, Montreal, Canada
- 1997-1998 **Research Assistant** - Algene Biotechnologies R&D Inc.,
Montreal, Quebec, Canada
- 1993-1997 **Teaching Assistant** – Montreal University,
Department of Biology, Montreal, Quebec, Canada
- 1990-1991 **Teaching Assistant** – Quebec University in Montreal,
Department of Biology, Montreal, Quebec, Canada

HONORS, AWARDS, AND SCHOLARSHIP

- 2016 -July **Certificate of Appreciation for Translation Work** – United Nations
(UNFPA Cameroun)
- 2014 - 2017 **Research Grant** - Legacy Health Foundation - Stem cell therapy for stroke
- 2007 - 2009 **Postdoctoral Fellowship** - Savoy Foundation - Stem cell therapy for epilepsy

MARTINE EMOND, Ph.D.

MEDICAL - SCIENTIFIC TRANSLATOR AND WRITER

6836 rue Boyer, Montreal, Qc, Canada, H2S 2J7

E-mail:memond@mpe-biomed.com

SCIENTIFIC ENGAGEMENTS

External reviewer for the journals

- *Neurobiology of Disease*
- *Epilepsia Research*
- *Stem Cells*
- *Progress in Neuro-Psychopharmacology & Biological Psychiatry*

AFFILIATION

- American Medical Writer Association (AMWA)
- American Translators Association (ATA)
- ProZ

PUBLICATIONS

Articles

In preparation, submitted or published

Emond MP, Vander Velden J, Owen R, Kumar N, Aronica E and Boison D. Transition of Adenosine Kinase Expression from Nucleus to the Cytoplasm during Mouse and Human Brain Development and Stem Cell Differentiation Suggests Role of the Enzyme in Cell Proliferation, Plasticity, and Differentiation (In preparation).

Emond MP, Vander Velden J and Boison D (In preparation). Adenosine-releasing glial precursors: a new tool to treat epilepsy (The title is subject to change) (In preparation).

Emond MP, Wyatt L, Vander Velden J and Boison D (In preparation). Neuroprotection induced by engineered adenosine-releasing cell implants in a new photothrombotic model of stroke (The title is subject to change) (In preparation).

Emond MP, McNeil R, Cabana T, Guerra CG and Lachapelle P. 2006. Comparing the retinal structures and functions in two species of gull (*Larus delawarensis* and *Larus modestus*) with significant nocturnal behaviors. *Vision Research*, 46(18): 2914–2925.

Sanon N, Carmant L, **Emond M**, Congas P and Lacaille J-C. 2005. Acute effects of kainic acid on differentially vulnerable CA1 hippocampal interneurons. *Epilepsia*, 46(6): 837–848.

Renaud J, **Emond M**, Meilleur S, Psarropoulou C and Carmant L. 2002. AIDA, a class I metabotropic glutamate receptor antagonist limits kainate-induced hippocampal dysfunction. *Epilepsia*, 43(11): 1306–1317.

Abstracts

Published

Ollivier M-L, **Emond MP**, Leman P and Carmant L. 2006. The role of metabotropic glutamate receptors in neurogenesis. *Epilepsia* 47(S4): 204.

Emond MP and Carmant L. 2005. Selective blockage of group I glutamate metabotropic receptor (mGluR I) reduces abnormal neurogenesis in the kainic acid (KA) model: a novel anti-epileptogenic mechanism. *Epilepsia* 46(S8): 101.
