 - Remarkable aptitude for problem-solving and devising simple, effective solutions
 - Comfortable working independently and delighted with guidance and supervision
-

Additional Competencies

- Graphic, Web Design, and Infographics
 - Technical SEO
 - Data Analysis
-

Disabilities

Autism Spectrum Condition (ASC)

As an autistic person with no support needs, I am hyper-empathetic, sensitive to all living beings, and possess a strong sense of social justice. I view autism as a neurological variant—not a disorder—so I prefer identity-first language (i.e., ‘autistic person’) rather than person-first language (i.e., ‘person with autism’). My accommodation needs involve favouring written communication over spoken and preferring precise instructions over ambiguous interpretations.
