**CAREER OBJECTIVE:** An experienced and resourceful Quality Control Chemical Analyst with multifaceted history of working in FMCG and pharmaceutical industries for more than 4 years covering hands-on analysis of raw, intermediate and finished products using instrumentation and chemical methods. I have been involved with the development, Qualification, and Validation of methods and processes of new products and analytical methods whilst offering integrity-based accomplishments in a productive and motivated workforce. I possess a BSc. in Chemistry with Second Class (Upper division) and seek to consistently deliver excellent value with respect alongside career development with a high achieving organisation.

**CAREER PATH:** Quality control/Assurance                      Pharmaceutical Chemist                      Food Chemist

**TOP SKILLS:** Research              Emotional intelligence              Sustainability              Management

**WORK EXPERIENCE**

**May 2021 – Till date**

**EMPLOYER: PHARMADEKO PLC.**

Ogun, Nigeria

Chemical Analyst

- Analysis of raw materials, in-process and finished FMCG, pharmaceutical, and lifestyle products in accordance with international compendia (BP, USP, EP, etc.) while utilizing spectroscopic and chromatographic analytical instruments.
- Develop, review, and implement Analytical Testing Procedures (ATPs) and related documentation (e.g. SOPs) for regular and special starting and packaging materials as well as intermediates and finished products.
- Rehabilitation and trending daily water analysis and products from various sampling and stability points respectively for conformity to required specifications.
- Overseeing the formulation of new oral care lifestyle products.
- Managing over 10 corp. members and internship students in laboratory practices.
- Ensure only wholesome chemicals/reagents are prepared and used for analysis.
- Ensure proper preparation, documentation, and safekeeping of instruments, reference and working standards.

**June 2020 – April 2021**

**EMPLOYER: SUMO STEELS LIMITED**

Ogun, Nigeria

QC Laboratory Analyst

- Analysed routine HCl generated utilised and at various storage tanks in the pickling of hot rolled coils and the acid regeneration plant respectively.
- Monitored the oil content, acid value, saponification value, Fe and Cl<sup>-</sup> content amongst other physiochemical parameters in the emulsion sample used in the milling of pickled hot rolled coils.
- Carried out hardness analysis of annealed coils using the Rockwell hardness tester.

November 2018–April 2020

**EMPLOYER: MOPSON PHARMACEUTICALS**

Lagos, Nigeria

QC Chemical Analyst

- Closely inspected the annealing temperature zones to avoid damages to over 18 coils per week.
- Analysed raw material, in-process and finished pharmaceutical products in compliance with regulatory specification using spectroscopic analytical instruments and methods alongside proper documentation.
- Cultivated and managed over 30 corp. members and internship students in laboratory practices.
- Supervised analytical and physiochemical analysis of products.
- Conducted regulatory stability studies of products over time under various conditions.
- Co-organized an analytical method for a newly formulated drug.
- Prepared and standardized reagents used in the laboratory for quantitative and qualitative analysis.
- Drafted and implemented calibration maintenance schedule of instruments and analytical balances to reduce unplanned incidents.
- Effectuated in-process checks on production lines at various sections.

## EDUCATION

**2022**

Gabson Professional School of Safety and Engineering

**Project Management**

**2019**

Lead-Leap Consulting

**Microsoft excel training (Basic and Intermediate level)**

**2018-2019**

National Youth Service Corps

**Certificate of National Service**

**2014-2018**

University of Ilorin

**B.Sc. Chemistry (Second class upper division)**

**2013-2014**

Ahmedu Bello University, Zaria

**A' Levels in Chemistry, Biology and Physics**

**2008-2013**

Fluorescent Comprehensive Private Academy

**SSCE (WAEC)**

## **ABILITIES**

- Analysis using instruments such as, High Performance Liquid Chromatography (Isocratic), UV-Visible spectrophotometer, FT-IR, Refractometer, pH meter, Rheometer, Sonicator, Hydrometer, and Rockwell Hardness tester amongst many others.
- Efficient user of Microsoft Word, PowerPoint, and Excel suite.
- Report writing, teamwork and collaboration, flexibility with a good cognitive intelligence, complex problem-solving skills, and interpersonal communication skills.

Available on request.

## TRAININGS AND CERTIFICATIONS

**June 2021**

Virtual attendance and participation on quality risk management and contamination control in food, drug, and cosmetics

**June 2020**

Jobberman SoftSkills Training

Workplace ethics, emotional intelligence, and presentations.

**April 2020**

Quality Management Systems Standard (ISO 9001:2015)

Alison Learning Online

**June 2018**

Attendance and participation at; "Chemical and Health Transformation for sustainable industrial development" ACS Consortium Conference 2018
