Translation and editing services in the field of medicine

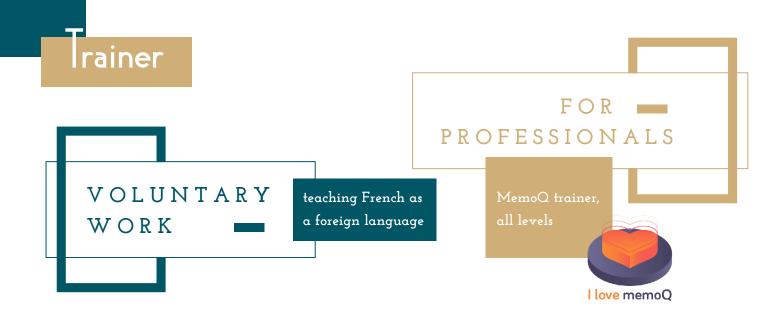

PRO RE NATA

is on hand to provide you with its talent, training, experience and expertise. We have almost 50 years' combined professional translation experience working for laboratories, medical device manufacturers, professional journals and specialist translation agencies.

2015

LINGUISTIC FLAIR

As a result of handling the complete range of internal and external documentation for my clients over the years, I have developed an excellent writing style.

Affiliations & Certifications

Member of the French union of professional translators since 2018. www.sft.fr Regional delegate for the Île-de-France region since November 2020.

Member of the French terminology society since 2004. www.terminologie.fr

Member of the Institute of Translation and Interpreting (UK) since 2014, having passed the ITI's qualified membership examination for translators, from English into French, in electronics and electrical engineering (MITI). www.iti.org.uk

Member of the ITI's medical and pharmaceutical network since 2014. www.itimedical.co.uk

ISO 17100/2015 certification, Translation services. Requirements for translation services, based on self-declaration.

Ongoing education

Since 2010, I have attended the medical English seminars organised by the SFT every two years. Medical device training and demonstration sessions at my clients' premises (cryotherapy, diabetes and cardiology).

I attend the Institute of Translation and Interpreting's conferences held every two years.

Concordancing and text analysis, typography, constantly refining and improving my French writing skills through writing workshops.

Keeping up with computing in general and with computer-aided translation software in particular (MemoQFest).
