## WORK EXPERIENCE

Assistant Manager 2019 - 2020

### Vilor Media Sdn Bhd | Penang

Throughout the year, I had the opportunity to participate in various media-related projects, which provided me with a deeper understanding of the translation industry. Through these experiences, I gained valuable insights into the complexities of translation, including the importance of cultural nuances and the need for precise and accurate language interpretation. By immersing myself in these projects, I was able to develop a more comprehensive understanding of the field and apply this knowledge to my role as a manager, ultimately enhancing the quality of our team's work and improving our clients' satisfaction.

Operation Manager 2020 - 2022

### Vilor Media Sdn Bhd | Penang

As the manager of a 50-person company, my role involved overseeing the day-to-day operations and ensuring timely delivery of high-quality translation services to clients. Working with a multinational team of translators, I was responsible for maintaining strong communication channels and fostering a collaborative work environment. Additionally, I played a key role in managing our media platforms, which involved coordinating with translators from different countries and ensuring that our content was culturally appropriate for our target audience. Through my leadership, we were able to consistently exceed our clients' expectations and maintain a strong reputation in the industry.

Managing Director 2022 - NOW

### Hexagon Space Sdn Bhd | Kuala Lumpur

I am the CEO of a company that provides professional translation services. Our team covers English, Chinese, and Malay and we also offer copywriting services to companies in the USA and Canada. Our focus is on delivering high-quality work and achieving growth in the industry.
